 Congratulations to Kay Leier, who won the beautiful Jean Quilt crafted by Fern Saufer — thank you again to Fern for donating!

The playschool kids enjoyed planting seeds for "Plant a Seed Week". Each child planted a bean and sunflower, then took them home with instructions on how to care for their plants.

PORCUPINE GETS WILD!

The Porcupine Plain Wildlife Federation is a non-profit organization established in 2010, with a mission to provide the best possible wildlife habitat year-round. Among other activities, which include keeping the trout pond stocked, the Wildlife Club hosts a few main events each year – the Horn Measuring, which took place on January 6, 2023; the Fishing Derby at Greenwater Lake, held this year on March 18th; and the Annual Banquet & Awards Night, which was recently held on April 15th.

On March 19th, the 2nd Annual Wildlife Club Fishing Derby took place at Greenwater Lake, with 53 fishing enthusiasts coming out to enjoy the day. Congratulations to the winners:

Adults:		Youth:	
1st	Shane Brezinski \$1,000	1st	Gretta Hingtgen \$100
2nd	Lenard Teale \$500	2nd	Berkley Knudsen \$50
3rd	Kelly Ford \$300	3rd	Cayden Lloyd \$25

The Banquet & Awards Night held on April 15th takes place each year to bring outdoor enthusiasts together for an incredible dinner and to celebrate the successes of the Club's members. This year's event also featured live music by the band Detour.

Congratulations to the winners honoured at this year's event:

The Wildlife Club would like to thank everyone who came out to enjoy the evening, as well as the trophy sponsors and prize donors. Without community support, the event would not be as successful as it is. Other "big winners" from the night included Jason Alexander, who walked away with an incredible Patio Package, and Violet Bender, who will need to host a party to share the massive Booze Basket she won!

If you have a passion for the outdoors, the Wildlife Club invites you to join. If you are interested in becoming a member, call or text contact Perry Nagy at 306-278-7007.

Are you adding a shed, deck, or garage this summer?
 Any structure over 100 square feet requires a building permit — including decks, even if they are not "attached" to your house, as they must meet building standards. Note that residents are required to apply for a permit and then must await building inspector and council approval before project commencement.

New Health Services Manager

The community of Porcupine Plain is pleased to welcome Chelsy Ratcliffe, the new Health Services Manager in Porcupine Plain.

Chelsy brings with her over 17 years of clinical nursing experience working in multiple departments within Saskatoon Hospitals which included, General Surgery, Medicine, Operating Room, Urology, Plastic Surgery and Labor & Delivery. Chelsy has spent her most recent years as a faculty member at Saskatchewan Polytechnic instructing the Perioperative Nursing & Medical Device Reprocessing programs. Chelsy began her new role on April 17, 2023, with her office located at the Red Deer Nursing Home.

Chelsy grew up in Saskatoon, but her family is from Sylvania & Bjorkdale, so the area is like a second home to her. She is married with two children, a dog and a cat, who are in the process of moving from Warman to Tisdale. Chelsy looks forward to the community focus of working rurally in Porcupine Plain.

ALBINO ROBIN SPOTTED IN PORCUPINE PLAIN

In April 2023, Don Forbes spotted this "albino" robin in Porcupine Plain.

The lack of pigment in feathers – called leucism or albinism – seems to occur more often in robins than in most other birds. However, this finding is still quite rare, with the condition affecting only about one out of every 30,000 robins! Albino birds completely lack the natural pigment known as melanin; leucistic birds, on the other hand, produce melanin but can't deposit it into their feathers. Fully albino robins will also have red or pink eyes, while leucistic birds will still have their normal coloured eyes. Leucistic birds may even have partial leucism resulting in a "pied" or mottled appearance.

Don Forbes, who has been birdwatching for 80 years, showed the writer an image from the 1970s of a partially white robin. His finding this spring, however, is his first time spotting a fully white robin!
